National Fallen Firefighters Memorial Service to Honor Fallen Minnesota Firefighter

EMMITSBURG, MD. – The 28th Annual National Fallen Firefighters Memorial Service will honor a Minnesota firefighter who died in the line of duty in 2008. He will be among the 98 men and 5 women from 36 states remembered at the official national service held at the National Fire Academy in Emmitsburg. Also honored will be nineteen other firefighters who died in previous years.

Firefighter Jeremy Jylka, age 34, of the Pine City Fire Department died after suffering a medical problem enroute to a wildland fire on April 29, 2008.

The National Fallen Firefighters Foundation (NFFF) and the Department of Homeland Security will sponsor the official national tribute on October 4, 2009. This ceremony marks the beginning of National Fire Prevention Week designated by President Obama to focus national attention on the destruction of property and loss of life caused by fire.

As first responders to all natural and manmade emergencies, fire service personnel are in constant danger. During 2008, 103 firefighters died in the line of duty, making firefighting one of the nation's most dangerous occupations.

More than 5,000 people, including Members of Congress, Administration officials and other dignitaries, members of the fire service, and families and friends of the fallen firefighters will attend the event. Families receive flags flown over the U. S. Capitol and the National Memorial. Honor guard units and fire service personnel from across the U.S. will participate in the National Tribute.

Many fire departments across the country will conduct simultaneous services, lower flags to half-staff, sound sirens at noon, and observe a moment of silent tribute.
